Mommy & Dadddy's Concerns:

1. When both parents are working, there will be no one to pick up the children, to care for them. We have a solution for you.
2. Who can help the children to finish their homework when the parents come home and are tired.
3. How can you make sure that they will learn Chinese in the United States?
4. When you want to help children to better understand the Chinese culture and you don't have enough time, what should you do?
5. If you want your Children to have good exposure in art, music, and dance, where can you find affordable school and quality teachers?

We will share your burden for you.

ACPA has been established for over 10 years. Its reputation and quality are well known in the bay area.

To help the mommies and daddies to solve the above problems, we have opened our after school program. We have recruited the best teachers to help the children with homework, to help the children to independently finish homework. We also have available professional instructors to offer music, art, dance, kungfu, crafts, and drama class. Our program is economical and comprehensive in all areas of development for the children.

Little Star Afterschool Arts Program will begin January 2004

-----Our Mission is to help the children

**to develop in art, physical ability,
to build artistic appreciation,
and further develop their character.**
